

My Own Church

A secure parishioner portal and mobile directory that improves accuracy while easing the administration of member records.

Parishioners and staff can access their user-friendly portal anytime, anywhere.

My Own Church integrates seamlessly with all the programs in the ParishSOFT Family Suite. New members visit your My Own Church site to register with your parish. Current members can log in anytime they like to sign up for classes or ministries, view their giving history, or submit changes to their records. Once your parish accepts those member submissions, their records are instantly updated in your ParishSOFT Family Suite. There's no need to re-key any data into your system!

My Own Church is the paperless, environmentally friendly way to stay connected. With updates from parishioners, it entrusts the unusual spellings to those who know best.

As part of the ParishSOFT Family Suite, you can access My Own Church from work or on the go, making it convenient to use.

Benefits for Staff

- Look up member information in the online pictorial directory before visiting homes and hospitals
- Accept registrations and updates to member records and ministry preferences electronically
- Improve the accuracy of parish census and reduce the administrative burden on parish staff
- Maintain full control over member access and updates – changes to your parish database happen only with your approval
- Bridge the gap between faith formation classes and ministry invitations and the actual parishioner signup

Benefits for Parishioners

- Register online to enroll any family member in an open faith formation class or volunteer for ministries
- Manage ministry scheduling and service preferences
- Access to envelope and online giving history
- Browse the online parish directory to connect with other members
- Update family and member information, add photos, and set privacy preferences
- Access giving statements anytime from work or home
- Support the accuracy of your parish records
